Claims 3 is presented for examination.

The amendments and remarks filed on April 3, 2009 have been received and entered.

Claims 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Bressi et al. (US Patent 7,154,002) for the reasons set forth on pages 2-5 of the office action of March 27, 2008.

Applicant's arguments regarding obviousness rejection have been carefully considered, but are not deemed to be persuasive. Applicant in his remarks argues that there is no motivation in picking the claimed compounds among all the HDAC inhibitors and use them for the treatment of ocular neovascular and edematous disorders. Applicant also argues that Bressi et al. mentions a number of HDAC inhibitors, but claims only a couple of them. It is the examiners' position, that obviousness does not require that the compounds to be claimed by the prior art. Such art clearly teaches that the claimed compounds have HDAC inhibitory activity. The prior art is also very clear in using the compounds with HDAC inhibitory activity for the treatment of ocular neovascular disorders such as macular degeneration and diabetic retinopathy. Applicant's arguments regarding the prior art using HDAC8 inhibitors have been noted. Applicant himself also agrees that the prior art has the general teaching of using class I HDAC's. Therefore, it would have been obvious to a person skilled in the art to substitute any compound having HDAC inhibitory activity for another and use it for the treatment of neovascular disorders given that such compounds share the same function, which is HDAC inhibition.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
